

Le Nguyen Anh Nhat

Data Scientist

📍 District 9, HCMC ✉ anhnhat909940@gmail.com ☎ 0348609126 🌐 AlexNhat 📄 Anh Nhat

📖 SUMMARY

Driven Data Scientist with hands-on experience in building end-to-end machine learning pipelines, developing analytical models, and transforming complex data into actionable insights. Skilled in real-time data processing, experimentation, and deploying production-ready models using modern ML and cloud frameworks. Highly motivated to contribute strong analytical thinking and continuously advance expertise through impactful, data-driven projects.

⚙️ TECHNICAL SKILLS

- **Machine Learning & Deep Learning:** Scikit-learn, TensorFlow, PyTorch, XGBoost, LightGBM, RAG, Qdrant, Google ADK
- **Data Science Frameworks:** Pandas, NumPy, Polars, Dask, HuggingFace Transformers, spaCy, FastAI, MLflow, Optuna, Ray Tune
- **Programming:** Python, SQL (SQL Server, PostgreSQL, MongoDB), R, Java; Git, Docker
- **Data Engineering & MLOps:** Spark, Airflow, dbt, DuckDB, Kafka, Databricks, PyArrow
- **Data Analysis & Statistics:** ETL, EDA, Hypothesis Testing, A/B Testing, Feature Engineering, Web Scraping
- **NLP & Data Types:** Text/NLP (spaCy, Transformers), Tabular, Time Series, Image
- **Data Visualization:** Matplotlib, Seaborn, Power BI

📁 EXPERIENCE

AI Engineer

(02/2025 – Present)

Tara.JSC

- Led development of enterprise AI chatbots for *BlueStone* and *Carez* using **Google ADK, MCP, A2A, RAG, FastAPI**
- Deployed department-specific chatbots (Marketing, HR, Accounting, Internal Management)
- Built **supply chain optimization AI**
- Developed **predictive models** (sales forecasting, demand forecasting) using Time Series (ARIMA, Prophet, LSTM)
- Built **customer segmentation model** using K-means and RFM, improving targeted marketing initiatives
- Created **product recommendation system** using collaborative filtering and item-based similarity
- Built **ML experimentation pipeline** with MLflow, Optuna → automated training, tuning, and model tracking
- Constructed **ETL + Feature Engineering workflow** for multi-source datasets (e-commerce + marketing + CRM)

Data Scientist Intern

(02/2024 – 06/2024)

Ntada

- Built **emotion recognition & user clustering AI** for social media — *92% accuracy*
- Engineered **scalable data pipeline** using Kafka, Spark, Airflow, dbt
- Developed **social graph analytics** to identify high-value customer segments

Data and AI Researcher

(05/2023 – 03/2024)

CIRTECH Institute of Technology

- Developed **3D printing time prediction** using BYOL + LSTM/RNN for production optimization
- Built **real-time ETL pipeline** with Spark, Airflow, PyArrow for sensor data
- Designed **YOLO-based student counting system** (91% accuracy) for smart lighting at HUTECH
- Created **AI face reconstruction** algorithm for forensic & medical imaging

RESEARCH PAPERS AND AWARDS

Research Papers

- **IMEDS 2025** — Tung Le, Nguyen Dat, Le Nhat, et al (2025)
Comparing Transformer Models for Vietnamese News Classification on VnExpress Data
- **GSETS 2025** — Paper Accepted, February 2025
 - Tran Phi, Le Nhat, & Bui Huong (2025). *Automated invoice processing using OCR and NLP for multi-format invoices*
 - Le Nhat et al. *The influence of ChatGPT on university students self-learning in Ho Chi Minh City*

Awards

- **IT Got Talent 2024** — Ho Chi Minh City Computer Association & HUTECH
Encouragement Award in *AI & Applications* — *Logistics Invoice Recognition using PaddleOCR* (Team of 2)
- **AI Challenge 2022** — Kyanon Digital & HUTECH
Second Prize — *AI-based 3D Face Smoothing on Object Images* (Team of 2)

PROJECTS

Supply Chain AI Optimization (03/2025 – 07/2025)

- Built LSTM-CNN and Ensemble models to predict inventory, delay risks, and return scenarios
- **Tools Used:** Python, Docker **Team Size:** 1

AI Chatbot for BlueStone & Carez (04/2025 – 08/2025)

- Developed using **Google ADK, Qdrant, MCP** for sales and product consultation
- **Tools Used:** Python, PostgreSQL, Docker, FastAPI **Team Size:** 2

Project Multi-Format Invoice Recognition (08/2024 – 12/2024)
github.com/AlexNhat/deploymentOCRinvoicev1

- Preprocessed with PaddleOCR, integrated GPT-3.5, Flask + Spring Boot API, JWT, Redis, Angular, Docker
- **Tools Used:** Java, TypeScript, Python **Team Size:** 2

Automated Trading System for Multiple Forex Pairs (07/2023 – 01/2024)
github.com/AlexNhat/Automation-Forex

- Applied SOTA time series models on noisy Forex data; demo on ThinkMarkets
- **Tools Used:** Python, Java, MySQL **Team Size:** 1

EDUCATION AND SOFT SKILLS

Ho Chi Minh City University of Technology

Major in Data Science — Current GPA: 3.27/4.0

Languages: English, Vietnamese (Native)

Soft Skills: Critical Thinking, Problem-Solving, Communication, Teamwork, Growth Mindset, Adaptability
